ABOUT US

Gulf Venture Engineering & Commerce LLC

Gulf Venture Engineering and Commerce is a globally trusted multi-service provider with over 30 years of experience in delivering high-quality engineering solutions and precision-manufactured components. Headquartered in Oman with our principal branch in Germany, we support a wide range of industries including power generation (wind, solar, and fossil), petrochemicals, oil & gas, cement, steel, paper, drydocks, and railway sectors.

Our core competencies include the design, engineering, and manufacturing of turbine components, electrical and control modules, analog/digital circuit boards, and advanced instrumentation devices. We work with an extensive range of materials such as specialized steels, super-alloys, thermal ceramic coatings, non-magnetic alloys, aluminum, titanium, cobalt, engineered plastics, and other high-performance materials tailored to demanding industrial applications.

Committed to excellence, our products adhere to the highest international quality and safety standards. We continuously innovate to improve durability and performance—welcoming complexity as a challenge that inspires our engineering and design teams. Whether it's developing a simple custom part or executing a multidimensional project, we are driven to exceed expectations and grow alongside our clients as a strategic partner.

In addition to our engineering and manufacturing services, Gulf Venture also offers comprehensive support in spare parts procurement, specialized machinery supply, and global import/export operations. Our integrated capabilities and dedication to client success make achieving your goals a streamlined and efficient process.

01

INDUSTRIAL CHEMICAL PRODUCTS & PETROCHEMICALS

Reliable Supply. Strategic Sourcing. Industrial Performance.

We offer comprehensive solutions for the sourcing, supply, and distribution of high-quality chemical products, petrochemicals, and essential industrial materials. Our global procurement capabilities, combined with technical expertise and an integrated logistics network, ensure the timely and cost-effective delivery of critical materials – from raw chemicals and catalysts to bitumen and urea – across industries.

Whether you're in refining, manufacturing, construction, or agriculture, we provide reliable access to certified products, tailored sourcing strategies, and full compliance with international standards.

Our Capabilities

- 1 | Global Procurement & Strategic Sourcing
- 2 | Industrial Chemicals & Petrochemical Supply
- 3 | Bitumen in Various Grades (Paving, Industrial, Modified)
- 4 | Urea for Agricultural & Industrial Applications
- 5 | Catalysts for Refining, Fertilizer & Petrochemical Processing
- 6 | Water Treatment, Boiler Chemicals, and Degreasers
- 7 | Packaging, Bulk Transport, and Freight Coordination
- 8 | Inventory Management & Supply Chain Optimization
- 9 | Customs Handling & Regulatory Compliance
- 10 | Quality Control, Inspection & Technical Documentation
- 11 | Customized Sourcing & Vendor Management

Key Benefits

- Reliable, On-Time Delivery Worldwide
- Access to Certified, High-Purity Materials
 - Cost-Effective Sourcing with Competitive Pricing
- End-to-End Logistics and Inventory Support
- Strong Supplier Network with Global Reach
- Full Compliance with Industry and Safety Standards

Industries Served

Oil & Gas | Cement | Power Plants | Manufacturing | Marine

02

MECHANICAL & ELECTRICAL INTEGRATION

Our Capabilities

- 1 | Electro-mechanical System Design
- 2 | Control Panel Integration
- 3 | Motor, Drive & Sensor Installation
- 4 | PLC, HMI & Automation Interface
- 5 | Power & Signal Cable Routing
- 6 | Retrofit of Legacy Equipment
- 7 | Site Testing & Commissioning

From Concept to Complete Systems. Seamless. Reliable. Smart.

We provide complete mechanical and electrical integration solutions tailored to industrial needs – combining mechanical assemblies with precision electrical systems. Whether you're upgrading an existing machine or building a fully customized setup, we ensure all systems work together seamlessly for optimized performance.

Industries Served

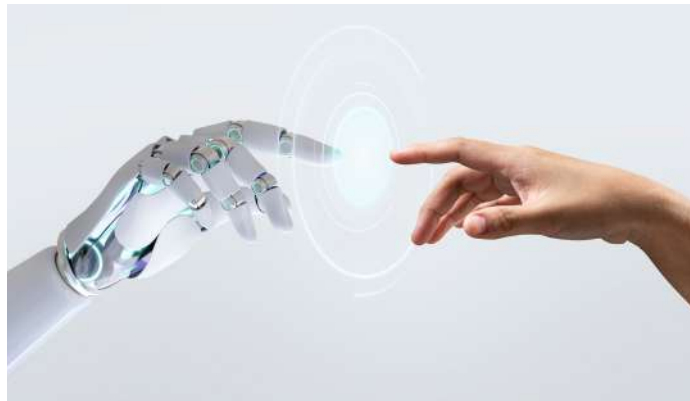

Cement | Oil & Gas | Manufacturing | Utilities | Logistics | Power Generation

03

AUTOMATION SOLUTIONS

Efficient. Scalable. Cutting-edge.

We offer end-to-end automation solutions that enhance system efficiency, streamline operations, and ensure high reliability. Our solutions are tailored to meet the specific needs of your industry, whether it's optimizing existing processes or designing new, fully automated systems. We focus on seamless integration to provide a smarter, more reliable automation environment.

Our Capabilities

- 1 | Custom Automation Design
- 2 | Control System Integration
- 3 | Robotic Automation Solutions
- 4 | SCADA & DCS Integration
- 5 | Data Acquisition & Process Monitoring
- 6 | Process Control Optimization
- 7 | Safety and Compliance Systems
- 8 | Remote Monitoring & Diagnostics

Industries Served

Cement | Oil & Gas | Manufacturing | Utilities | Logistics | Power Generation | Pharmaceuticals

04

MECHANICAL & ELECTRICAL INTEGRATION

Connected. Convenient. Secure.

Transform your living space into an intelligent, energy-efficient home with our smart home solutions. From enhancing comfort to improving security and energy management, we provide a wide range of automation technologies that bring control and convenience to your fingertips. Whether you're looking for a fully integrated system or simple upgrades, we tailor our solutions to fit your lifestyle.

Key Benefits

- Increased Energy Efficiency
- Enhanced Security & Surveillance
- Convenient Remote Access
- Personalized Comfort Settings
- Seamless Integration with Existing Systems

Our Capabilities

- 1 | Home Automation Systems
- 2 | Smart Lighting & Climate Control
- 3 | Security & Surveillance Solutions
- 4 | Voice & App-Controlled Systems
- 5 | Energy Management & Smart Metering
- 6 | Automated Blinds & Curtains
- 7 | Smart Entertainment Systems
- 8 | Integration with IoT Devices

Industries Served

Residential | Hospitality | Commercial | Real Estate

05

SOLAR PRODUCTS
& HYDROGEN GENERATION PLANTS

Sustainable. Efficient. Future-Ready.

Harness the power of the sun with our comprehensive solar products and solutions. We provide cutting-edge solar technology designed to meet the energy needs of residential, commercial, industrial, and oil and gas sectors. Whether you're looking to reduce energy costs, decrease your carbon footprint, or achieve energy independence, our solar solutions offer reliable, efficient, and eco-friendly alternatives.

Key Benefits

- Reduced Energy Costs
 - Eco-Friendly & Renewable Energy
- Energy Independence & Reliability
- Long-Term Durability & Performance
- Government Incentives & Rebates

Our Capabilities

- 1 | Solar Panel Systems
- 2 | Solar Inverters & Battery Storage
- 3 | Grid-Tied & Off-Grid Solutions
- 4 | Solar Water Heating Systems
- 5 | Energy Management Systems
- 6 | Custom Solar Installations
- 7 | Maintenance & Performance Monitoring
- 8 | Consultation & Design Services

Industries Served

Commercial | Industrial | Oil & Gas | Utilities | Agriculture

06

SPARE PARTS PROCUREMENT
FOR IMPORT & EXPORT

Reliable. Efficient. Global Reach.

We specialize in sourcing and supplying high-quality spare parts for various industries, ensuring the smooth operation of your equipment and machinery. With a strong global network, we handle the import and export of spare parts with precision and reliability. Our focus is on providing timely delivery, cost-effective solutions, and access to hard-to-find parts, so your operations never experience unnecessary downtime.

Our Capabilities

- 1 | Sourcing & Procurement of Spare Parts
- 2 | Customs Clearance & Logistics Management
- 3 | Inventory Management & Stock Replenishment
- 4 | Genuine & OEM Spare Parts
- 5 | Replacement & Retrofits
- 6 | Urgent & Emergency Parts Supply
- 7 | Global Sourcing Network
- 8 | Quality Assurance & Inspection

Key Benefits

- Minimized Equipment Downtime
- Access to High-Quality Parts
- Streamlined Import & Export Process
 - Competitive Pricing
- Global Sourcing with Local Expertise

Industries Served

Oil & Gas | Manufacturing | Cement | Power Generation | Utilities | Marine | Mining

Global Reach. Reliable Supply. Sustainable Solutions.

We specialize in the procurement and distribution of high-quality agricultural products on an international scale. With an extensive network of suppliers and distributors, we ensure the efficient, reliable, and timely delivery of diverse agricultural goods to markets worldwide. Whether you're seeking raw materials, processed products, or specialty crops, our tailored solutions meet the needs of your business, ensuring sustainable sourcing and consistent supply.

**Our Capabilities**

- 1 | Global Procurement of Agricultural Products
- 2 | Logistics & Distribution Management
- 3 | Customs Compliance & Documentation
- 4 | Supply Chain Optimization
- 5 | Market Analysis & Sourcing Strategies
- 6 | Quality Control & Inspection
- 7 | Sustainable Sourcing Practices
- 8 | Export & Import Solutions

Key Benefits

- Consistent & Reliable Supply Chain
- Global Access to Agricultural Markets
- Efficient & Cost-Effective Logistics
- Expertise in International Trade Compliance
- Tailored Procurement Solutions
- Sustainable & Ethical Sourcing

**Industries Served**

Agriculture | Food Processing | Retail | Exporters | Importers | Agribusiness | Manufacturing

Quality. Durability. Excellence. From A to Z of Your Home Needs.

We specialize in providing premium building materials and kitchen solutions, offering a comprehensive selection of high-quality products—from A to Z—for all your home needs. Whether you need sinks, tubs, ovens, hoods, or specialized fixtures, we supply durable, stylish, and functional materials for both residential and commercial projects. Our commitment to superior quality ensures that every product enhances the value, style, and functionality of your space.

**Our Capabilities**

- 1 | Complete Range of Building Materials & Fixtures
- 2 | Premium Kitchen Solutions (Sinks, Tubs, Ovens, Hoods, etc.)
- 3 | From A to Z: Everything You Need for Your Home
- 4 | Custom Sourcing for Specialized Products
- 5 | High-Quality & Durable Materials
- 6 | Competitive Pricing & Timely Delivery
- 7 | Expert Consultation & Design Services
- 8 | Tailored Solutions for Residential & Commercial Projects

Key Benefits

- Consistent & Reliable Supply Chain
- Global Access to Agricultural Markets
- Efficient & Cost-Effective Logistics
- Expertise in International Trade Compliance
- Tailored Procurement Solutions
- Sustainable & Ethical Sourcing

Industries Served

Construction | Real Estate | Renovations | Commercial | Residential

Our Capabilities

- 1 | 3D Scanning & CAD Design
- 2 | Material Analysis
- 3 | Machining, Casting & Fabrication
- 4 | Mechanical & Electrical Parts
- 5 | Obsolete Parts Replication
- 6 | Technical Documentation

Rebuild the Past. Empower the Future.

We specialize in reconstructing outdated or unavailable mechanical parts with high precision and modern materials. Whether your equipment lacks documentation or is no longer supported by OEMs, we deliver reliable reverse engineering solutions to restore full functionality – or even improve performance.

Industries Served

Oil & Gas | Cement | Power Plants | Manufacturing | Marine

QuCypher has become a trusted partner in delivering cutting-edge cybersecurity solutions, specializing in the integration of advanced cryptography to safeguard enterprises against evolving cyber threats. Through this partnership, QuCypher collaborates with top-tier companies to enhance their security protocols, leveraging innovative technologies to provide resilient protection across all digital assets. Their comprehensive services focus on mitigating risks posed by both classical and emerging quantum-based attacks, ensuring that organizations remain secure in an increasingly complex digital landscape.

Post-Quantum Crypto Agility

Outage & Breach Prevention

Eliminate Costly Manual Process

With over 32 years of engineering excellence, BHT Electric Control Mechanic GmbH & Co. KG has built a solid reputation as a reliable and innovative partner in the industry. Our team is known for being responsible, dynamic, and enthusiastic—qualities that are reflected in every project we undertake. Each task is approached with precision, care, and a deep understanding of the nuances involved. Our decades of experience and in-depth industry knowledge have firmly established us as a market leader and a trusted partner to international clients around the globe.

BHT is proud to have a strong presence in the Middle East through its sister company, **Gulf Venture Engineering and Commerce**, based in Oman. **Gulf Venture** is recognized for its commitment to quality and reliability in both products and services. Together, we deliver integrated engineering solutions that meet the highest international standards, ensuring client satisfaction across diverse industrial sectors.
